LOADLINKERS

Agent Playbook

How to sell Loadlinkers TMS to new US freight brokers

- What we sell and who we call
- The full call script and objection answers
- Calling rules, texting rules and logging
- How you earn, and your first week

Version 1 · November 2026 · Internal, do not share with brokers
Training video: sell.loadlinkers.co/training

01 · START HERE

Your goal on every call

Every call has one main goal and one backup goal. Keep them in mind from the first second.

Goal	What it looks like
Main goal	The broker gives you permission to text the 7-day free trial link, or agrees to a 15-minute demo call.
Backup goal	If they say no to the TMS, they agree to a free Loadlinkers Marketplace profile.

The one rule that matters most: never text a broker before they say yes on the call. Ask first, get a clear "sure", save the outcome, then text.

02 · WHAT WE SELL

Loadlinkers TMS and the Marketplace

Loadlinkers TMS is software for new freight brokerages. It replaces spreadsheets with one place for:

- Rate confirmations
- FMCSA carrier checks
- Invoices and billing
- Importing their existing spreadsheet: we do it for them

Plan	Price	Who it fits
Starter	$69 / month · 1 user	A one-person brokerage just getting started
Growth	$189 / month · 3 users	A small team booking loads every day
Scale	$799 / month · custom setup	A larger brokerage that needs a custom setup

- Every plan starts with a **7-day free trial**.
- Each extra user is **$25 / month**.

Loadlinkers Marketplace is free. We personally connect brokers with freight agents and dispatchers. Brokers post what they are looking for, and when we find a good fit, we introduce both sides. Profiles stay private until there is a match.

Never call the Marketplace a "load board". It gives introductions, not loads. Never promise results, numbers or data we do not have.

03 · YOUR LEADS

Who you are calling

Your leads are newly registered US freight brokers. Their FMCSA operating authority went active recently, so most are still setting up how they work. Many run loads on Excel or Google Sheets. They have not contacted us, so you reach out to them first.

Before every call

- Open the lead and read the **FMCSA profile**: company name, MC and DOT numbers, contact name, authority.
- Check the **timeline** so you know if someone already called, emailed or texted.
- Check the broker's **local time** on the lead page. Only call inside the calling window.
- Phone numbers and emails are masked on purpose. You call, text and email from inside the portal.

Leads are yours

A lead assigned to you is not given to any other agent. Leads go to agents who call actively: the more you call, the more fresh leads you receive. If you stop calling for a week or more, your daily leads are reduced and passed to active agents.

04 · CALLING RULES

How calling works in the portal

Rule	Details
Calling window	8 AM to 6 PM in the broker's local time, Monday to Friday. Inside the window you choose your own hours.
Outside the window	The Call button changes to "Request after-hours call". Add a short note. The admin approves each request.
Calls per hour	Up to 40 calls per hour. The lead page shows how many you have used.
Unanswered calls	After 2 unanswered tries, that broker gets a 1-hour cooldown. Move on to your next lead.
Recording	Every call is recorded and transcribed, and the admin can review it. Say the recording line on every call.
Best times	10:00 to 11:30 AM and 2:00 to 4:00 PM Eastern time usually get the most answers.
Equipment	Calls run in your browser. Use a headset and allow your microphone the first time.

05 · THE SCRIPT

Open every call the same way

Say it in your own voice, but keep the key lines. The same script shows in the portal while you call.

Opener

"Hey [Name]? It's [First Name], [Full Name] with Loadlinkers. Just so you know, this call may be recorded for quality. I'm looking at your FMCSA profile here, I saw your authority went active recently, and I was wondering if you could help me out for a moment?"

They say: "Sure, what's this about?"

"Well, I'm not even sure if it makes sense for us to talk yet. I'm calling new brokers to see who's still running loads and rate cons on spreadsheets, because that usually costs hours every week and causes billing mistakes. Is that something you're dealing with?"

Excel or interested: go to the Yes path. Objection: go to the No path.

Yes path: they are on Excel or interested

They say: "Yeah, we're on Excel."

"Got it. How many loads are you running a week, roughly?"

Listen. Note the number in the lead notes.

"Okay. We built Loadlinkers TMS for exactly that stage. Rate cons, FMCSA carrier checks and invoices in one place, and we'll import your spreadsheet for you. There's a 7-day free trial. Would you be opposed to me texting you the trial link so you can try a load or two on your own time?"

They say: "Sure."

"Perfect. Is this the best number to text? And would you be against a quick 15-minute call on [day] at [time], so I can import a few of your loads live?"

After the call: save "Trial link sent" or "Demo booked".

06 · OBJECTIONS

The No path

"We already have a TMS."
"Which one are you using? … If you could change one thing about it, what would it be? … That's one of the reasons we built ours. Would you be opposed to me texting you the trial link, just to compare?"

"Not interested."
"Totally fair. Is it because you're set with a system, or it's just not the right time?" If it is timing: "Would it be okay if I check back in a month?"

"Send me an email."
"Happy to. What should I put in it so it's actually useful, pricing or a quick video?"

Save "Email requested".

"How much is it?"
"It starts at $69 a month, and there's a 7-day free trial."

"I'm busy right now."
"No problem. When's a better time, later today or tomorrow morning?"

Get an exact time. Save "Callback requested".

Backup: the Marketplace (only after the TMS is rejected)

"Totally understand. One more thing before I let you go, and this one's free. We also run the Loadlinkers Marketplace, where we personally connect brokers with freight agents and dispatchers. You post what you're looking for, and when we find a good fit, we introduce you. Would you be opposed to me texting you the link to create a free profile?"

If they ask how it works: "You sign up with what you need. Profiles stay private until we make a match, then we introduce both sides. No cost to join."

After the call: save "Marketplace link sent".

07 · AFTER THE CALL

Log it, then text (only with permission)

Choose one disposition after every call, before you dial the next lead:

Disposition	Use it when
Demo booked	They agreed to a 15-minute call at a set day and time.
Trial link sent	They said yes to receiving the trial link by text.
Marketplace link sent	They said no to the TMS but yes to the free Marketplace link.
Callback requested	They asked you to call back. Note the exact time.
Email requested	They asked for an email. Note what they want in it.
Voicemail left	No answer and you left a voicemail.

- Update the **stage** and write a short **note**, so you and the admin know what to do next time.
- Saving "Trial link sent" or "Marketplace link sent" records the date the broker gave permission. Only then does the portal let you text them.
- Use the quick-text buttons in the SMS thread instead of typing from scratch.

The link you send brokers

loadlinkers.co/freight-brokers

Product walkthrough video, broker overview, pricing and the free trial button, all on one page. Send it only after the broker says yes.

08 · YOUR EARNINGS

How you earn

- You earn a **recurring commission** on every customer you bring in, every month, for as long as they stay subscribed. Your commission rate is in your agent terms.
- Commission also covers extra revenue from your customer, such as extra users they add.
- A sale counts once the customer's **first payment is received**. Free trials do not count until they pay.
- Commissions are paid on the **15th of each month** for the previous month's sales.
- Your level, balance and earnings show at the top of the portal.

09 · GETTING STARTED

Your first week

Day	Focus
Day 1	Sign in, change your password, watch the training video, read this playbook and the call script.
Day 2	Practise the opener out loud until it sounds natural. Make your first 20 calls in the best calling hours.
Day 3–4	Call steadily inside the window. Log every call. Review your notes at the end of each day.
Day 5	Call back everyone who asked for a callback. Ask the admin about any call you were unsure of.

This is a suggested routine, not a target. Steady daily calling is what keeps fresh leads coming to you.

10 · QUICK REFERENCE

Do's and don'ts

Do	Don't
• Say the recording line on every call • Check the broker's local time first • Ask permission before texting • Log every call before the next one • Be polite and professional, always • Ask the admin when unsure	• Text without a clear yes • Call the Marketplace a "load board" • Promise results or data we do not have • Share leads, scripts or logins with anyone • Call outside the window without approval • Argue with a broker who says no

Getting help

- In the portal: open **Help**, then **Ask admin**.
- Training video: **sell.loadlinkers.co/training**
- Forgot your password: click **Contact Support** on the login screen.
